

The Somerset Herald.

EDWARD SCULL, Editor and Proprietor.

WEDNESDAY, July 11, 1895.

A man may not feel able these pinching times to buy a bicycle but he can buy a horse.

CALIFORNIA'S fruit crop of 1894 was estimated at \$50,000,000. This year it will exceed that. This is better than her gold mines.

The following States will vote for State officers in November: Iowa, Kentucky, Maryland, Massachusetts, Mississippi, New Jersey, New York, Ohio, Pennsylvania and Virginia.

The Richmond (Va.) Times thinks that fireworks will keep forever. It asks that "all fireworks not fired on July 4 be kept to celebrate the Democratic victory."

JAMES A. GARBFIELD, Jr., has been nominated as the Republican candidate for State Senator in the district represented by his distinguished father in the Senate of Ohio.

At the end of the government fiscal year, June 30th, it was found that the Treasury deficit for the year was \$48,000,000, instead of a surplus, which the administration experts have been promising.

Mrs. O'LEARY, whose cow kicked over the Chicago oil lamp that started the great Chicago fire of 1871, died last week. What became of the cow that gave the old lady's name to fame, is not recorded.

According to the Railroad Gazette, the railroad companies have ordered 25,000 freight cars this year at a cost of \$10,000,000. If the crop turns out well even this reinforcement will hardly meet the demands of ceasing and expanding business.

The counting of silver dollars in the mint at Philadelphia, which began on June 4th, was finished on July 5th. The number counted was 40,999,257. The greatest number counted in any one day was 2,725,000. This count was made in preparation for the annual settlement.

LANCASTER maintains not alone its reputation as the garden spot of the State, but the assessors' returns just compiled are an evidence of solid wealth not equaled by some of the States. The resident taxable population is 45,270 and the assessed value of all real estate is \$86,556,485, with \$1,227,776 exempt. This is but a two-thirds valuation on 614,765 acres of cleared land and 57,681 acres in timber.

GOVERNOR HASTINGS, after having filed vetoes of three bills with the Secretary of the Commonwealth, has recalled and signed them. This has given rise to a discussion, as to whether these bills are laws, or whether the vetoes, when filed, were the end of the measures. The Herald thinks that the latter is the correct view.

The fifteenth section of the fourth article of the Constitution provides that bills presented to the Governor within ten days of the final adjournment of the Legislature, shall become laws without his approval "unless he shall file the same with his objections in the office of the Secretary of the Commonwealth, and give notice thereof by public proclamation, within thirty days after such adjournment."

On Saturday last the Governor prepared a veto of the bill appropriating \$250,000 to the normal schools, filed it with the Secretary of the Commonwealth, and as the representatives of a number of other institutions have been grievously disappointed by the veto of their appropriations, it is more than probable that measures will be taken to contest the validity of the normal school bills. Unless judicial proceedings should be instituted, the State Treasurer and accounting officers of the State can only obey the law as it is, for they have no judicial powers and cannot question the validity of a statute. The question could be raised only by a legal action to enjoin the Auditor General and the State Treasurer from the payment of the appropriation made under the law.

If the facts are as generally stated, and as yet they are not disputed as far as we have heard, that the Governor vetoed the normal school appropriation on Saturday, filed his veto and publicly proclaimed the same from the steps of the Capitol on that day, it would seem clear that the veto was complete and that the courts could not enjoin the financial officers from the payment of the appropriation. A veto given after the adjournment of the Legislature thus filed and proclaimed, complies with every requirement of the Constitution, and would appear to have the precise effect of the Governor sending it to the Legislature. A veto transmitted by the Governor to the Legislature certainly could not be recalled after it had become a part of the records of that body.

Another question as to the validity of a law has arisen in the bill providing for the appointment of Game Commissioners in this State. It originally appropriated money to pay the expenses of the commission, but the drafter of the bill passed with the appropriation eliminated. The Senate restored the appropriation, and in the conference committee an agreement was reached that \$1,500 was appropriated for the expenses, but the House defeated the conference report. Notwithstanding this failure to pass, it was certified to the Governor and has been signed by him.

Regardless of the fact that this bill was defeated in the Legislature, it is now necessary to consider the question of the validity of the law as it stands, and whether it is binding upon the executive officers of the State.

Malton Schrock is headquarters for mill feed, grain, hauled hay and straw.

Country produce taken in exchange for Groceries, Flour and Feed at MABSON SCHROCK'S.

Teachers Wanted. One Grammar and nine Intermediate and Primary teachers for the Myersdale schools. Applications to be in before the 12th of July. S. S. GOOD, SECRETARY.

Herald for Fourth. The place to buy fire Crackers, Roman Candles, Rockets, Flares, Bursting of all colors, Balloons, etc., is at Pises's.

Readers of the Herald should not for that J. N. Storer, the draught, can fit their eyes with ease.

A Ghost Pointed to a Murderer.

This presentation of a petition to the Ohio state board of pardons Thursday, brought out a peculiar story of how the appearance of a ghost to a Muskingum county woman led to the conviction of a murderer.

About 17 years ago John W. Brock, a farmer who lived near Zanesville, was seen to go into a wood with his dog and gun to hunt. Two days later his body was found in the woods, with a bullet hole in his head.

As he had often threatened to commit suicide, it was supposed that he had killed himself, and the owner's jury so found. But nearly two years later Brock's mother dreamed she saw her son's coffin open and him rising in his grave clothes, led by a woman who she recognized as a neighbor. She started a prosecution on this basis, and after two trials a man named James Morehead, a young man of the neighborhood, was convicted.

The Keystone of the Arch. In the office of health is vigor, which means not merely muscular energy, but an active discharge of the various functions of the body, such as digestion, assimilation of the food, the action of the bowels, the circulation of the blood. Nothing more actively and thoroughly contributes to the vitality of the human system, than the use of the Sarsaparilla, the most powerful and reliable of all purgatives, and the most effective of all remedies for the various ailments of the system. It is a powerful and reliable of all purgatives, and the most effective of all remedies for the various ailments of the system.

Items of Interest.

On the basis of directory figures New York claims 2,000,000 population. To kill his dog a Shenandoah miner tied a stick of dynamite to it, blowing the canine to pieces.

Allen Pettibone, of Granby, Conn., accidentally shot four persons, committed suicide Tuesday night by hanging himself. A piece of glass, which ran into her foot, caused death by blood poisoning of Jerome Bixler's daughter, at Millersville, Clinton County.

Governor Hastings has issued a proclamation, calling the attention of Pennsylvanians to the Cotton States exposition at Atlanta, and urging them to send creditable exhibits.

Mrs. Elizabeth Rankin, wife of Hugh Rankin, residing at No. 322 Liberty avenue, Pittsburgh, gave birth to four children—three males and one female—Saturday evening. Two of the boy babies have since died.

According to the latest returns of the Indian Office there are, in the United States, exclusive of Alaska, 137,477 of these living on reservations, 28,052 of whom support themselves. The total of self-supporting Indians is 212,900.

Mrs. Kate Chase, the daughter of Salmon P. Chase, one of the foremost statesmen and stateswomen of this country, is trying to raise money enough to save Edgewood, her father's old home, on the outskirts of Washington, D. C., from lawyers who have foreclosed a mortgage on the place.

On the first day of July, not making 2220 words, the returned tonic and regulator, Hostetter's Stomach Bitters, the result of its use is a speedy gain in strength, together with the agreeable consciousness that the nature of the body is being strengthened—that one is laying up a store of vitality against the unavoidable draughts which old age makes upon the system. The fortifying influence of the Bitters is shown in a reliable case against malaria, rheumatism and kidney trouble. Appetite and sleep improve through its use, and it protects the system from the effects of cold and damp.

J. N. Goodrich, cashier of the Toledo and Ohio Central Railroad, at Port Huron, Mich., took a holiday on Wednesday night and with his wife and 7-year-old son, started on a visit. A special train struck the handcar, killing Mrs. Goodrich and the child and probably fatally injuring Goodrich.

Governor Francis Marion Drake was nominated for Governor of Iowa Wednesday by the Republican State Convention at Des Moines. The platform ignores the prohibition question among State issues, as being out of the jurisdiction of the State, and reaffirms the Minnesota platform on the leading national issues. Senator Allison was endorsed for President.

Ray York, aged 12, and Ervin F. Lake, aged 17, are holding successful raffles in Missouri. Ray was convicted when 6 years of age and not long afterward united with the Baptist church, at once becoming a preacher. Ervin is the pastor of the First Baptist church of Mount Carmel, Ill., and is said to be the youngest pastor in the world.

The report of the United States Geological Survey is about ready to be made public. In treating on the bituminous coal fields of Pennsylvania, it has the fears of those who have been anxious about the supply of that particular fuel; surveys and examinations of those coal beds have led the government experts to announce that at the present rate of consumption the supply will not be exhausted for eight hundred years to come.

With dramatic forethought Emil Michalski Monday night committed suicide in the very hour when he was to have been married, in St. Louis. He was drowned out of all his money in a business transaction last week, and in view of his loss preferred death to facing his intended bride. He went to Forest Park at the hour set for the wedding and delivered a speech which was a masterpiece of wit and sarcasm. The mother of the intended bride died suddenly yesterday morning of heart disease.

James Shannon, a well-known farmer of Dutchess county, met a horrible death while at work in his field Tuesday afternoon. He was operating a mowing machine when he fell from his seat in front of the knives. The horses attached to the machine, frightened by his cries, hurried on and he was caught in the knives of the mower. His leg was cut off and he was otherwise horribly mutilated by the fast-moving knives. His wife, who was at work in the same field, ran to his assistance and placed him under a neighboring tree, while he ran for a doctor. When he returned with the physician his father was dead.

In reply to a question of a correspondent, "How old are Niagara Falls," the Philadelphia Call gives the following interesting answer: "Niagara river has cut a channel through the solid rock, about 1,200 to 1,300 feet wide, and seven miles long. The evidence is conclusive that the falls were formerly at Queenstown, seven miles below the present situation. It has been shown that one foot a year for the last half century. If this had been the rate of retrocession for the whole distance—and on account of the nature of the rock it is not unreasonable to suppose it greater—it has required 36,000 years for the great excavation."

Lifting the Veil on Great Insurance Swindlers. TORONTO, Ont., July 13.—The bodies of Ethel Alton and Nellie Pietzel, the missing daughters of Benjamin F. Pietzel, were found by Detective Cuddy, of Toronto, and sister of Philadelphia, this afternoon, buried in the cellar of a house, No. 16, St. Vincent street. H. H. Holmes, now under arrest in Philadelphia, is believed to have deliberately murdered the two girls after he had first murdered their father in Philadelphia and their brother in Detroit.

H. H. Holmes, alias Herman W. Mudgett, alias H. H. Howard, was born in New Haven, Conn., attended a medical college at Baltimore, Md., and later Ann Arbor, Mich. He and a friend swindled an insurance company in Chicago out of \$12,000 soon after graduating. They made another haul in a similar way, Holmes went into the drug business and speculated. His wife, at home and he married a "her woman, with whom he went to California. Retaining in about a year he was to housekeeping with the woman typewriter of the company whose acquaintance he had formed. He tried to effect a fire insurance company out of \$20,000, but failed, and learning that his typewriter and her were to be inherited \$20,000, laid a scheme to get the money.

The sister came to live with them and disappeared, while he and Minnie, the typewriter girl, took up their abode at the Plaza Hotel, Chicago. Holmes later called at Pietzel Hotel, Ind., where he married Miss Voke, and they spent their honeymoon in Denver, where Holmes made \$27,000 in speculation. At Philadelphia, later on, he and Pietzel played the last card. Pietzel was insured in the Philadelphia Mutual for \$30,000, on September 21 he was found dead in his house, 136 Callowhill street, which he had rented under the name of B. F. Perry. His body was badly burned and the face was almost unrecognizable. Pietzel's wife and children identified the body as Pietzel's, and the insurance money was paid over.

Then Train Robber Hedgcock gave the whole case away to "The Herald" and Harrison, because Law's Hove, who he had gotten into the conspiracy had not paid him the promised reward. Holmes was traced to Toronto, Ballington and in the latter city he was arrested. He made another haul in a similar way, meaning the Pietzel children had disappeared, the boy being traced to Indianapolis and the two girls to Toronto.

Corner Lounging a Misdemeanor.

Corner lounging is now defined to be a misdemeanor; hitherto the judges of the courts have held that it was not a criminal offense. For the benefit of the public we recite the act:

"That from and after the passage of this act if any person or persons shall willfully make or cause to be made any loud, noisy or otherwise unduly disturbing disturbance to the annoyance of the peaceful residents near by, or shall thereby cause the assemblage of persons upon or near any public highway, road, street, lane, alley, park, square or common within this commonwealth, whereby the public peace is broken, or disturbed, or the traveling public annoyed, he, she or they shall be guilty of the offense of disorderly conduct, and upon conviction thereof, before any justice of the peace, alderman, mayor or burgess, shall be sentenced to pay the costs of prosecution, and to forfeit a fine not exceeding ten dollars, and in default of the payment thereof shall be committed to the county jail, of the proper county, for a period not exceeding thirty days.

"Section 2. It shall be the duty of all justices of the peace, aldermen, mayors and burgesses to pay over to the treasurer of their respective counties, all fines or forfeitures collected by virtue of this act quarterly, on or before the first Monday of March, June, September and December of each year, and at the expiration of their term of office."

Do you want to buy a first-class musical instrument at a moderate price? Go to Snyder's drug store.

Drought Nips the Grain Crop. ST. PAUL, Minn., July 14.—Reports from a half a dozen counties of Western Minnesota and as many more from South Dakota border counties are to the effect that there is a protracted drought in that region and the grain already in the field is damaged to at least 35 per cent. In many localities, which a few weeks ago promised enormous yields, there will not be more than five to six bushels of wheat to the acre.

Violins, Mandolins, Guitars, Banjos and other stringed instruments at Snyder's drug store.

A New Bug Appears in Indiana. GREENSBORO, Ind., July 14.—The farmers for miles around this town will have to look out for a new pest, which appeared early in the spring of the Hessian fly, which did incalculable damage. Then came a peculiar bug, which destroyed the wheat and corn crops.

Now there has appeared a strange louse resembling very much the potato bug, which is eating up all the timothy. It seems to be a new species, and local scientists are puzzled. There are millions of them in every acre of timothy in the country. They clean all vegetation before leaving the spot.

MARRIED. WHITE—RITCHIE.—In Somerset, July 10, 1895, by Rev. Bristol, Mr. James S. White, of Columbus, Ohio, and Miss Elizabeth T. Ritchie, of Cleveland, Ohio.

IN paint the best is the cheapest. Don't be misled by trying what is said to be "just as good," but when you paint insist upon having a genuine brand of Strictly Pure White Lead.

It costs no more per gallon than cheap paints, and lasts many times as long. Look out for the brands of White Lead offered you; any of the following are sure:

"Armstrong & McKelvey," "Beymer-Chambers," "Davis-Chambers," "Edwards," "Forsyth," "Fox Colons—National Lead Co's Pure White Lead Fining Colors."

These colors are sold in one-penny cans, each can being sufficient to get up a good coat of Strictly Pure White Lead. A combination of these colors in the hands of the painter will give you the best results. These colors have been saved by the National Lead Co. from the hands of the painter, and are now being sold in one-penny cans, each can being sufficient to get up a good coat of Strictly Pure White Lead. A combination of these colors in the hands of the painter will give you the best results. These colors have been saved by the National Lead Co. from the hands of the painter, and are now being sold in one-penny cans, each can being sufficient to get up a good coat of Strictly Pure White Lead.
